# Manual to Download the Drivers for oMunim Dongle
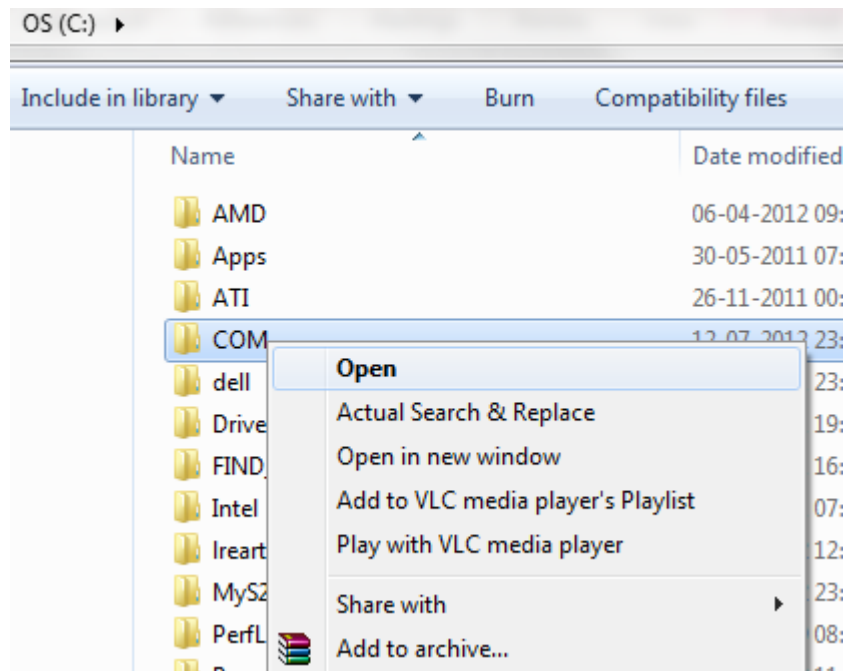

Please always open **OMREVO** drive from My Computer, Another CD Drive used only for Back-Up purpose of software.

**Now Copy COM folder to your System C: drive.**

Now Open COM folder.

Please check **System Configuration**, Check you have 32 Bit or 64 Bit OS.

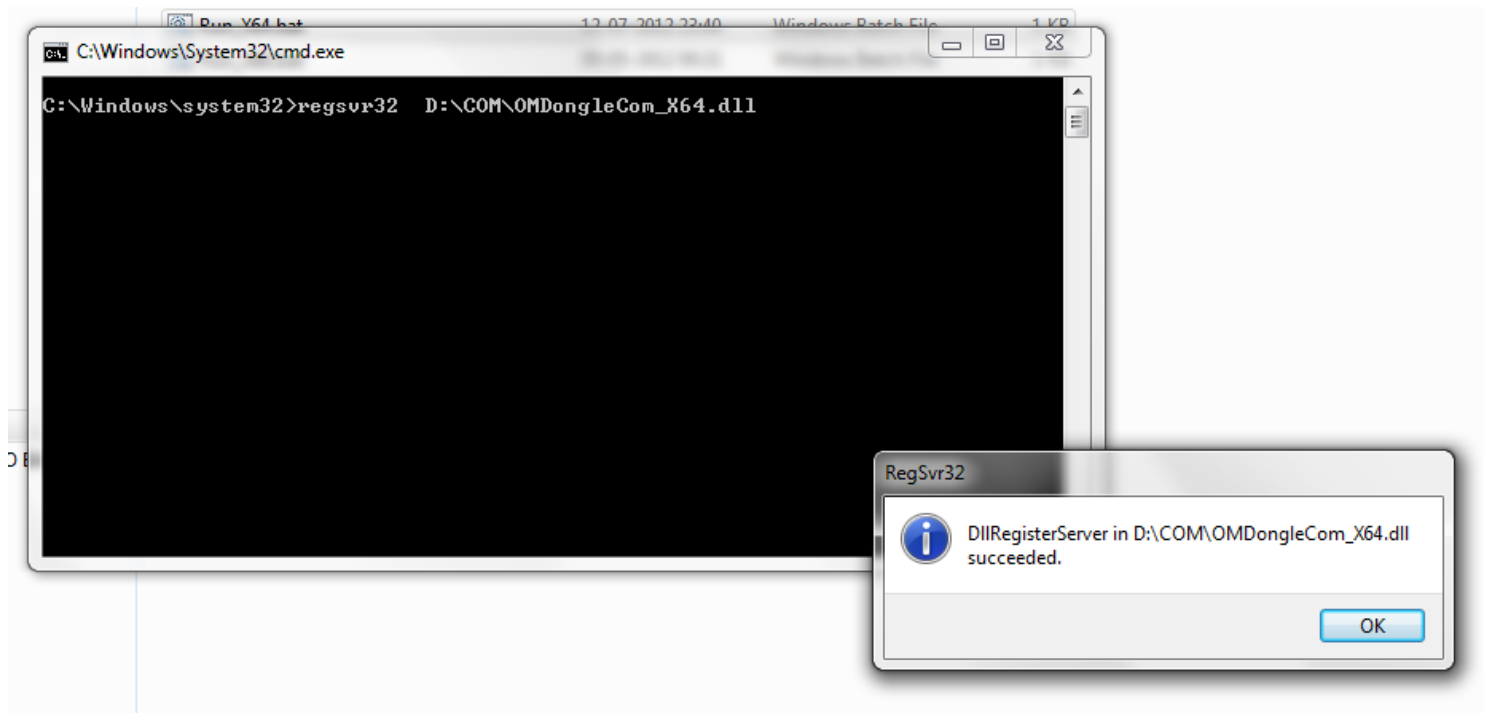

If your System is **64-Bit** then choose **Run_X64.bat**, Otherwise for 32-Bit system choose **Run_X32.bat** file.

Right Click on that file and click on **Run as Administrator** Option.

Click on **YES** Button in Next window

Then Successfully Message will populate.

If not able to install drive successfully, then try the same procedure from D drive. Copy the COM folder into D drive and run .BAT file.

Now start **oMunim**.exe from oMunim Dongle.

Name	Date modified	Type	Size
COM	12-07-2012 22:59	File folder	
dbdir	12-07-2012 22:59	File folder	
dlls	12-07-2012 22:59	File folder	
htdocs	12-07-2012 23:02	File folder	
server	12-07-2012 22:59	File folder	
autorun.inf	23-02-2012 08:53	Setup Information	1 KB
gdiplus.dll	04-05-2004 15:23	Application extens...	1,607 KB
logo.ico	18-01-2012 23:53	Icon	32 KB
oMunim.exe	05-05-2012 01:00	Application	987 KB
oMunimScreen.png	08-11-2011 02:35	PNG image	134 KB
pms_config.ini	12-07-2012 22:58	Configuration sett...	7 KB
readme.txt	12-07-2012 22:58	Text Document	1 KB

Now oMunim will start processing.

After processing login screen will display.
